

Classroom Control

Classroom Control Module

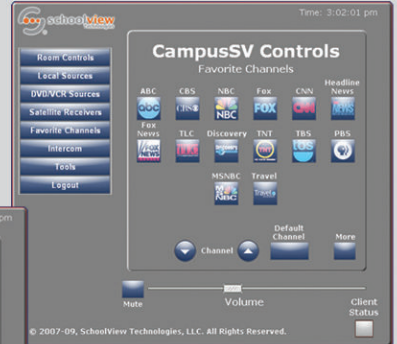

Add this module to provide a powerful yet intuitive web interface on each teacher PC. This module provides direct classroom control of room volume and projectors. When paired with our Video Delivery Module, this module enables accessibility to shared resources such as DVD players, Satellite Receivers, Cable Boxes, and DVRs located in the library or media headend.

Twenty-first century schools use technology to drive efficiency, safety and improved teaching and learning. And while the past decade has seen dramatic changes in education technology both inside and outside the classroom, each advancement has typically brought with it a new system, new procedures and new challenges. CampusSV® software, from SchoolView Technologies, is a complete, scalable solution that consolidates management and control of diverse school technologies at the district, building and classroom level, on a single, comprehensive platform. Our network-based approach modernizes traditional bell, clock and PA systems, while addressing the management and control needs of classroom audio, video and presentation tools.
